

Join Generation Green Team!

Who are we?

Generation Green Team is an after-school organization at Sarasota School of Arts & Sciences. Our mission is to help bring awareness to our community and school to help in creating a healthier environment. We participate in service and volunteer programs focused on renewability, recycling and living green! Our club takes part in a variety of community activities, field trips and school functions to achieve these goals. We grow our own garden, help to clean up the environment, explore organic gardens and nature parks, and more!

We thank you for your support of our school, our community and your dedication and commitment to help us create a healthier, and more sustainable Earth!
