

SSA+S LAWN BOWLING CLUB

WHAT IS LAWN BOWLING?

Lawn bowling is a game played between individuals or teams. The object of the game is to roll grapefruit sized bowls weighing 3.5lbs toward a small white ball called the “Jack” located at the other end of the green, about a 100ft. away. The fun part is that a bias is built into the bowl causing it to arch 3-6ft at the end of its roll. The person closest to the jack scores a point.
