

Sarasota School of Arts and Sciences Supply List

Many of our students' assignments and textbooks are online, and we always strive to keep our supply list simple and inexpensive. Excluding special electives, these supplies are under \$100 total on Amazon, and Jansport, Five Star, and Mead are quality products that should last.

In addition, our school will be utilizing the new OpenGate Weapon Detection System to further support campus safety and security. To ensure that this additional measure does not create slow, inefficient entry, we are adapting our supply list to eliminate supplies with significant metal components - no spiral notebooks, no binders, no folders, etc...

Backpacks:

•

- Only single compartment clear or mesh single compartment backpacks are permitted on campus.
- For safety purposes, students may not carry purses and/or any other type of bag. For sanitary items, we suggest a small pouch or additional pencil case for modesty. (shopping bags, tote bags, Lululemon bags are not allowed)
- For safety purposes, students are permitted to carry only one single compartment, clear bag on campus and in classrooms.
- Lunch boxes and PE clothes/shoes should fit in backpack

Organizer:

One organizer made completely out of plastic. We suggest these, available on Amazon for under \$10. Metal will set off the detectors and is not allowed so that we can be efficient and safe.

Lockers and Locks:

Some students will need a locker, especially those students who have to bring overnight or sports bags on campus. If a locker is desired, you must purchase a Master Combination Lock so that locks can be opened with our key. You can purchase a lock from us or at a store. Lockers are NOT required; students may carry their few supplies.

Any non-approved locks will be cut off.

Sarasota School of Arts and Sciences Supply List
